## Report of The County Assessor.

(Section 89a (1) of The Assessment Act).

The Warden and Members of the County Council of the County of Norfolk.

Gentlemen:

The Report of the County Assessor for the year 1949 is presented for your consideration.

The suggested values for County Equalization Purposes and for County Levy have been prepared as follows:

"The net taxable realty assessment for the year 1948 of each Municipality has been taken and an equalizing factor employed to interpret this assessment in terms of the 1948 equalized assessment for the Municipality. In those municipalities where the annexation or separation of land has been a factor adjustments have been made to arrive at values for County Equalization for the year 1949. Business Assessment for the year 1948 has then been added to determine the total assessment of each Municipality for County Levy purposes."

For example, the figures for County Equalization and for County Levy purposes suggested for the Township of Windham have been computed as follows:

1.—Net taxable realty assessment, 1948 ....	\$ 5,131,659.00
2.—Equalizing factor .....	.9795
3.—1948 Realty Assessment in terms of 1948 Equalized Assessment .....	5,026,460.00
4.—DEDUCT— Land annexed by Delhi ..	\$ 4,750.00
Land annexed by Simcoe ..	60,875.00
	<hr/> 65,625.00
5.—SUGGESTED COUNTY EQUALIZED ASSESSMENT, 1949 .....	\$ 4,960,835.00
6.—ADD Business Assessment, 1948 .....	13,475.00
7.—SUGGESTED ASSESSMENT FOR COUNTY LEVY, 1950 .....	\$4,974,310.00
8.—Total Real Property Assessment, 1948 ..	\$ 5,131,659.00
9.—Total Taxable Assessment, 1948 .....	\$ 5,145,134.00

Similar computations have been made for the other twelve municipalities.

The suggested total for County Levy purposes for 1949 is \$36,900,732.00, or an increase of \$4,480,239.00 over the 1948 total of \$32,420,493.00.

The net taxable assessment as taken from the 1948 assessment rolls is 36,760,897.00 which is only \$139,835.00 lower than the suggested assessment for County Levy.

Your County Assessor had expected that sufficient appraisals would have been made of all types of property in the various municipalities so that equalizing factors in terms of County Assessment schedules could have been employed. He regrets to advise that in his opinion such factors as have been determined are not representative enough to be used in the 1949 equalization. The basis of Assessment used in the preparation of the 1948 Assessment Rolls were several, namely, County Assessment Schedules in three municipalities, 1948 schedules in several other municipalities and 1946 schedules in one or more of the municipalities. It has, therefore, not been considered advisable to use the increases in assessment that may be determined by subtracting the 1947 totals from the 1948 totals, in the 1949 equalization.

This Report is presented as a suggested basis for Equalization under section 90 of the Assessment Act.

Section 90 reads as follows:-

(1). The Council of every county shall, yearly, and not later than the 1st day of July, examine the assessment rolls of the different townships, towns and villages in the County, **for the preceding year** for the purpose of ascertaining whether the valuations of real property made by the assessors in each township, town or village bear a just relation one to another, and may, by by-law for the purpose of County Rates, increase or decrease in any township, town or village, the aggregate valuations, adding or deducting so much per centum as may, in their opinion, be necessary to produce a just relation between them; but they shall not reduce the aggregate valuation for the whole County as made by the assessors.

(2). Within ten days after the equalization by-law has been passed by the County Council, the County Clerk shall transmit to the Reeve and Clerk of each Municipality a copy thereof."

The Assessment Rolls of the various Municipalities are in the Council Chamber and it is suggested that several assessments be examined in each roll in order that general comparison of assessments may be considered.

In presenting this report your County Assessor recognizes that appraisals in some of the Municipalities indicate that the percentages suggested for the 1949 Equalization may be further adjusted when the work of appraising under County Assessment Schedules is nearer completion.

Your obedient servant,

R. P. QUANCE,  
County Assessor,  
County of Norfolk.

Simcoe, Ontario,  
May 28th, 1949.
